# Politipedia (Team Aqua)

- **Goal**: to provide an easy way for people to better inform themselves about US politics
- **Motivation**: making informed decisions about political candidates is difficult
  - Lots of scattered information to consider (voting records, special interests, etc.)
- **Implementation**: encyclopedia about candidates and elections so voters can make informed political decisions
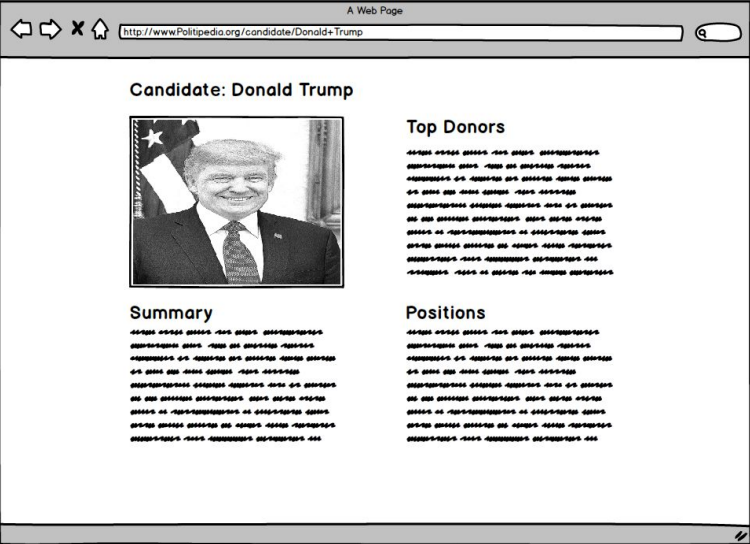

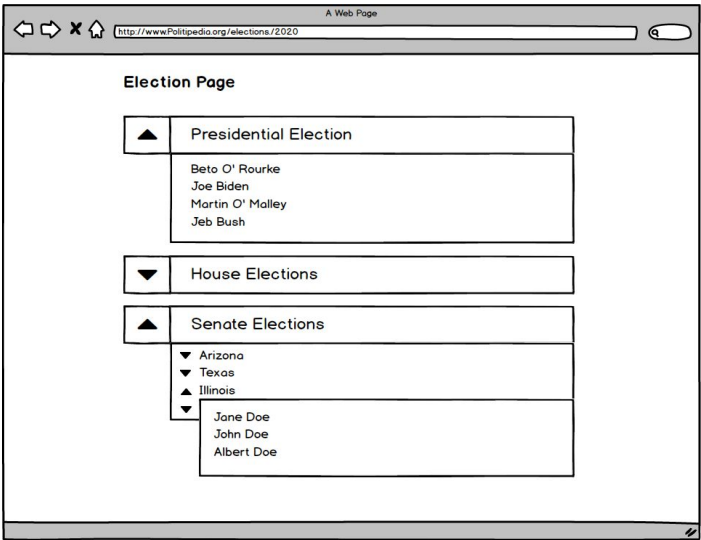

Requirements

Feasibility

- Curating and grouping a large amount of data
  - Different use cases require different data sources
- Complex linkages between database tables
  - Ex. Candidates, donors, sponsored bills, etc.
- Querying database efficiently
  - Fast querying and database indexing

Interface

Candidate Search Results Page

Election Results Search Page
